

THE WESTMORELAND MUSEUM of AMERICAN ART

ACUPUNCTURE PHOTOGRAPHY PROJECT

EMILY ANDREWS AND AUTUMN STANKAY

MAY 29 – JUNE 28, 2020

This collaboration of acupuncturist Emily Andrews and photographer Autumn Stankay melds modern art with healing art through a series of photographic prints representing the ancient medicine of acupuncture in the modern world.

Emily Andrews has been practicing acupuncture for over a decade. She has lived in Greensburg, PA for nearly nine years and co-founded the integrative clinic True Health and Fitness. She has worked with thousands of patients over that time and feels lucky to be a part of such a wonderful community. She is passionate about educating the public about acupuncture and has always appreciated the art of photography.

Autumn Stankay is a portrait, wedding, and commercial photographer from Westmoreland County and founder of Skysight Photography. In her work, Autumn uses a dynamic blend of creative composition and innovative set design for each subject that she has the pleasure of shooting, using the art of photography to highlight an individual's unique personality and true self.
